Massage with John Chen

Friday Mornings – Call for an appointment.

One-Hour Massage: \$100

John is a long-time practitioner and teacher of Chi Gong and Tai Chi; in addition, he is currently completing his degree in acupuncture. John has created a unique style of massage that combines aspects of these traditions with Tui Na, an ancient Chinese deep tissue massage technique. During massage, John begins by connecting his energy to the client's energy, finding points in the client's energy field that are stuck or blocked, and opening those points so that the client's energy field may flow freely. John then moves to the muscle/body level and releases stuck points on that level. Clients report dramatic improvements in the feeling of their bodies following massage with John.
